

## *Idle Thoughts*

### *Modern Britain*

PUSHCHAIR, bastard, single mum,  
Absent father – we've become  
Acknowledged worldwide as a nation  
For our *forte*, fornication.

Bastard's vital: it's the brat  
Who ensures a council flat  
And benefits in cash and kind  
That taxpayers will blindly find,  
While half a nation's population  
Waxes flat on procreation.
